DETAILED ACTION

Summary

Receipt of Applicants Remarks and Amended Claims filed on August 21, 2008 is acknowledged. Applicant has cancelled all previously presented claims and submitted new claims 16-17. Therefore, all outstanding rejections have been withdrawn. The following rejections and/or objections are newly applied. They constitute the complete set presently being applied to the instant application.

Information Disclosure Statement

Receipt of the Information Disclosure Statements filed on April 10, 2008 and April 21, 2008 is acknowledged. Signed copies are attached to this office action.

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 16-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kito et al. (JP abstract 04-243825), in view of Omori (JP Abstract 04-149426A).

Kito discloses oral administration of tranexamic acid and ascorbic acid capable of effectively curing pigmentation (abstract).

Kito does not disclose the use of L-cysteine.

Omori discloses a solid pharmaceutical preparations comprising L-cysteine having effects on alleviation of dermal stains (abstract).

It would have been obvious to incorporate the L-cysteine of Omori into the composition of Kito since both references are attempting to solve the same problem, i.e. skin bleaching by oral administration. It is generally considered to be *prime facie* obvious to combine compounds each of which is taught by the prior art to be useful for the same purpose in order to form a composition that is to be used for an identical purpose. The motivation for combining them flows from their having been used individually in the prior art, and from them being recognized in the prior art as useful for the same purpose. As shown by the recited teachings, instant claims are no more than the combination of conventional components of utilized for skin bleaching/lightening. It therefore follows that the instant claims define *prime facie* obvious subject matter. Cf. In re Kerhoven, 626 F.2d 848, 205 USPQ 1069 (CCPA 1980).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of
